

Digital Health Equity Conference: Local Empowerment, Global Alignment

**Join us in shaping the
future of public health
data science and AI!**

March 4-5, 2025

Kline 14
219 Prospect Street
New Haven, Connecticut 06511

This conference focuses on themes including data equity and digital health solutions, privacy approaches for digital health equity and representation, the emerging landscape of digital health and AI in India, and health equity in action: the role of scalable data products and services. Speakers include a diverse group of leaders from academia, government, healthcare, and industry.

This conference is generously supported by the Yale MacMillan Center, and co-organized with the Yale Institute of Foundation of Data Science (FDS).

If accessibility accommodations are needed, please contact holly.zoeller@yale.edu
