About the Program

The new Data Science Fellows Program brings together early-stage Yale PhD students to advance interdisciplinary data science research. Participants gain opportunities for cross-disciplinary collaboration, professional development, and community engagement while pursuing research that integrates data science into their PhD training.

Selected students will have access to:

- Mentorship
- Academic programming
- Professional development
- Funding

Application Process

Applications open March 1, 2026. The application requires:

- A current CV and a personal statement.
- A form to be completed and submitted by an academic advisor or mentor.
- **(optional)** A student-identified potential faculty co-mentor in a complementary discipline.

Selections are made by the Data Science Fellows Program steering committee and announced in June. **The deadline to apply is May 15, 2026.**
